Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. Applicants' amendment filed September 7, 2005 is acknowledged and has been entered. Claims 9-21, 24 and 25 have been canceled. Claim 4 has been amended. Claims 1-8, 22 and 23 are now pending in the present application. All rejections have been withdrawn in view of Applicants' amendment to the claims and/or comments, with the exception of those discussed below.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. The abstract of the disclosure is objected to because it does not specifically reflect the presently claimed invention. Correction is required. See MPEP § 608.01(b).
4. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
5. The disclosure is objected to because of the following informalities: at p. 3, l. 27, "peflava" is not spelled correctly; it should be "perflava". Appropriate correction is required.
6. Claim 4 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter,

which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not find support for the amendment to claim 4, "or a fragment of any of (a)-(e)". A review of the specification indicates that there support for a fragment of transferring binding protein only (see p. 9, l. 28-37). However, there is no support in the specification for fragments of Cu,Zn-SOD, fragments of NspA, fragments of a porin, or fragments of an outer membrane protein.

7. Claims 22 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are vague and indefinite in the recitation "isolating an outer membrane vesicle" and what is encompassed in this step of the method. It is not clear how these outer membrane vesicles were made. Are these outer membrane vesicles part of the "*Neisseria* of (c)"? Do Applicants intend—isolating an outer membrane vesicle from the *Neisseria* of (c) or something entirely? How does the heterologous gene product actually get into the outer membrane vesicle?

8. Claims 1-3 and 5-8 are allowable.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to N. M. Minnifield whose telephone number is 571-272-0860. The examiner can normally be reached on M-F (8:00-5:30) Second Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette R.F. Smith can be reached on 571-272-0864. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
